

What it's used for:

- The Baby Lock Victory is ideal for your hemming and serging projects on a wide variety of materials and fabrics
- The Victory is ideal for creating rolled hems, joining two fabrics together with a strong interlocking stitch (or chain), and for end stitching on fabrics
- Use the Victory to create vibrant and creative projects such as t-shirts, skirts, pants, or putting the final touches on drapes or blankets

Specs:

- The Victory's maximum stitch width is 7.5mm, and the maximum stitch length is 4mm
- The Victory is set up with 75/11 machine needles, which are suitable for most medium and lightweight fabrics; for heavyweight fabrics, we use a size 90/14 needle
- Select the type of stitch you wish to serge, and the Victory will automatically feed the correct amount of thread through the loopers and thread guides to form a perfect stitch every time

Hardware and Materials:

- The Victory uses two sewing needles across four, three, or two interlocking threads to create an incredibly strong stitch
- The needle's semi-ball point design is suitable for knits and wovens without damaging your designs or garments
- A fabric blade cuts excess material away from the fabric to create perfect finish on seam stitches
- For maximum performance of the Victory, we use 100% polyester-long fiber thread
